

MONITOR THE INVISIBLE

RADIATION PORTAL MONITOR (RPM)

- Advanced digital technologies
- High detection capabilities
- User friendly & fully automatic

ACCESS CONTROL - RADIODETECTION FOR PEDESTRIAN & VEHICLES

PEDESTRIAN CONTROL

DIRAD

Real time spectrometric system for access control

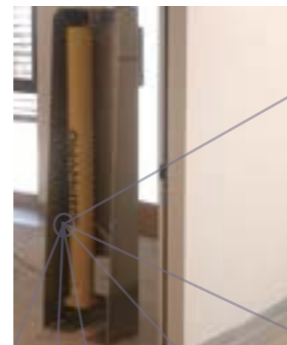

DIRAD is an automatic real-time Gamma spectroscopic monitor, capable to detect and identify illegal and hazardous movements of radioactive materials on public roads or pathways. DIRAD can continuously monitor a flow of people without limiting their movement.

Radiological Control for Pedestrian (RCP)

Radiation Portal Monitor for pedestrian

RCP works in dynamic and static mode, ensuring the best performances. It can manage several PVT detectors for Gamma radiation control as well as neutron detectors (option). RCP is automatic and suitable for any harsh indoor and/or outdoor application.

CONTAINERS CONTROL

Radiological Control of Container Load (RCCL)

Portal Monitor for small containers, luggage and parcels

RCCL is a Radiation Portal Monitor specifically developed for the detection of potential radioactive sources or contaminated residuals in hospital and health care activity waste but also in luggage and parcels.

RCCL operates automatically, in both static and/or dynamic mode, so the operator does not have to stop in front of the detector. The extreme simplicity of use does not require any external intervention and trained staff.

VEHICLES CONTROL

SaphyGate G - NEW technology

Easy-to-use Portal Monitor optimized for truck, train and cargo radiation control

- New sophisticated adaptive algorithms
- Background compensation
- Improved sensitivity with extremely rare false alarms
- Alarm characterization
- Large surface & high volume detectors
- Fully digital system
- User friendly & fully automatic
- Reliability & technical support

APPLICATIONS

Waste and recycling Control

Nuclear Access Control

Border Control

Hospital Waste Control

With the expertise of **SAPHYMO**

OUR EXPERIENCE

- ✓ 3.000+ RPM operative in more than 40 countries!
- ✓ More than 100 new SaphyGATE G operative world-wide
- ✓ International test certification: CMI, ITRAP+10, UNI-10897, etc.
- ✓ Professional after sales services
- ✓ Successfully audited by voestalpine AG
